PROPOSED Recommendations for the crawlspace at 7086 W. Tobi Dr. Boise, Idaho
Ness, LLC is an IICRC council certified Mold Remediation Contractor, licensed, bonded, and insured with mold and environmental pollution endorsements.

As requested, the crawlspace was inspected for drainage and mold issues. There did not appear to be any issues, at this time, but this is not a guarantee that there cannot be any future issues, as condition change. We do have some recommendations to keep moisture levels down and maintain a healthy crawlspace environment. See below.

Part 1: Crawlspace Recommendations

1. Set containment and floor protection to the crawlspace access.
2. Set negative air. This will be on while all work is performed and completed.
3. Remove and dispose of old vapor barrier, miscellaneous debris, and building materials. Install new 6 mil. vapor barrier in the entire crawlspace and pull up onto the footings, where possible.
4. Clear spider webs and debris from all foundation vents to improve air flow in the crawlspace.
5. Clean up/remove equipment.

Total Labor and Materials: \$ 1,020.00

No warranty available

***If signed in the next 24 hours, we will be able to fit this into the schedule tomorrow or Friday.

>> *Due at the time of install* <<
>> *3.5% charge on credit card transactions* <<
